MID MURRAY COUNCIL

ANNUAL BUSINESS PLAN AND BUDGET 2012/2013

1. INTRODUCTION

The annual business plan sets out the Council's proposed services, programs and projects for 2012/2013. It aims to maintain a variety of services and facilities for the community throughout the Council area. It also continues progress towards the longer term objectives for the Mid Murray Council set out in the Strategic Management Plan adopted by the Council on 10/07/2006 (revised and adopted 8 December 2008).

Council has long-term financial and asset management plans to ensure the long-term sustainability of the Council's financial performance and position. This annual business plan is consistent with these plans.

Effluent Drainage Rates	\$896,375
NRM Levy	\$207,187
Kerbside Collection of Recyclables Rates	\$154,660
Other Separate Rates	\$50,109
Percentage of Rateable Assessments Affected by the Minimum Rate	26.10%

MID MURRAY COUNCIL

The Mid Murray Council was formed on 1 July, 1997 through the amalgamation of the District Council of Mannum, District Council of Morgan, District Council of Ridley-Truro and part of the District Council of Mount Pleasant. The Council area comprises land within regions generally known as the Murraylands, Riverland and the eastern slopes of the Mount Lofty Ranges. The major topographical feature of the area being the valley of the River Murray with some 220 kms of this picturesque waterway passing through the district.

The principal office of Council is situated in Mannum. This is the site for Council's administration and finance functions. The Cambrai Council Office houses the planning, building control and environmental health functions, whilst the works functions of Council are based at the Morgan Office.

Major issues confronting the Council:

- The need to maintain and upgrade our infrastructure (especially a very large road network) in a safe and trafficable condition. The second largest of a Council in South Australia.
- Continued promotion and upgrade of our very large tourist infrastructure based mainly on the River Murray.
- Development pressure for growth in the Council area.
- Funding disparities between Rural and Metropolitan Councils.
- Increased legislation imposed by the State Government in particular on Local Government, especially environmental matters in relation to Waste Management Services.
- Increased operating costs due to the Federal Governments Carbon Tax.
- Financial Sustainability Program.
- Previous River Murray riverbank slumping problems.
- Drainage problems within townships.
- Cost pressures for higher expenditure levels in the Community Development area.
- Continued repairs to our infrastructure following the floods in December 2010.
- Review and provision of services more efficiently throughout Council.

Council is also continually confronted with new challenges which it meets as they arise. Many of these challenges put pressure on rate income increases above inflation. These include higher EPA waste management levy, rising electricity and material costs (the cost to Council of price rises for 2012/13 is 4.4%), Carbon Tax and additional legislative costs.

Council is proposing a general rate increase of 7.5%

VISION STATEMENT

We celebrate our rich and diverse country lifestyle built on a strong economy. Our aim is to encourage a continuing vibrant community, family spirit, the ongoing protection of the River Murray and maintain our precious natural, cultural and built heritage.

MISSION STATEMENT

We will be:

Proactive in planning for and facilitating business and industry investment and economic growth;

Committed to the protection of our natural and built environment;

Open and inclusive in encouraging community involvement and partnership in Council plans and policies;

Advocates for and providers of services and facilities that support community wellbeing;

An efficient and responsible manager of Council assets, infrastructure and resources in partnership with the community;

A professional organisation that attracts and retains high quality staff and Elected Members.

VALUES

We will be known for our:

Honesty, integrity and reliability;

Professional, hard working and responsive approach;

Positive and progressive attitude;

Openness, balance and pragmatism when making decisions;

Strong leadership in the best interests of the whole community.

NATURAL AND BUILT ENVIRONMENT

1.0 GOAL

An orderly and sustainable planning, management and development approach to all aspects of our natural and built environment.

STRATEGIES

- 1.1 Improve environment practices within the Council area.
- 1.2 Develop policies and practices that have regard to adaptation to and mitigation of climate change impacts.
- 1.3 Council to implement measures to improve the efficiency of its own water and energy use.
- 1.4 Protect and manage sensitive environments by establishing criteria for sustainable access and use of reserves.

NATURAL AND BUILT ENVIRONMENT CONT'D

STRATEGIES CONT'D

- 1.5 Investigate the feasibility of a recycling programme and sorting facility in association with a major landfill facility in the region.
- 1.6 Actively encourage the development of alternative energy sources and support the use of solar power in new developments.
- 1.7 Council to work effectively with regional NRM Boards and sub-regional NRM Groups to support effective sustainable land management, policies and practices.
- 1.8 Implement a waste management strategy that reduces the volume of waste going to landfill.
- 1.9 Promote the environmental benefits of community wastewater management systems and alternative wastewater treatment systems including the re-use of treated wastewater, where appropriate.
- 1.10 Acknowledge the ongoing relationship of Aboriginal people with the land, the River and their resources.
- 1.11 Ensure that the Development Plan incorporates environmental sustainability principles in respect to all forms of development
- 1.12 Ensure planning policies provide adequate levels of protection to heritage places and guidance to facilitate new development that is compatible with adjoining historic buildings.

COMMUNITY

2.0 GOAL

An enhanced, cooperative relationship within the community to achieve our shared vision.

STRATEGIES

- 2.1 Ensure a sustainable future with choices for opportunities for all of our residents and visitors.
- 2.2 Facilitate the development of housing suitable for older people, especially where medical and other services are available.
- 2.3 Continue to lobby for aged care packages to support people who wish to remain in their own homes.
- 2.4 Continue to support the Regional Development Boards to address employment and infrastructure barriers to attract new families and to encourage our young people to stay or return to the District.
- 2.5 Consult with young people to identify how best to meet their needs and aspirations.
- 2.6 Encourage employers and training providers to work together to provide youth training and employment opportunities.
- 2.7 Develop a communication strategy to facilitate the effective provision of information.

COMMUNITY CONT'D

STRATEGIES CONT'D

- 2.8 Continue to support small communities by working with community organisations and volunteers to optimise the use of existing facilities and improve and maintain services.
- 2.9 Undertake streetscape and township improvements in accordance with Master Plans completed for various towns, staged within annual budget provisions.
- 2.10 Support the provision of medical facilities and health services to meet community needs including through advocacy to the State Government.
- 2.11 Continue to consult with the community and to provide services and facilities for people with disabilities.
- 2.12 Promote the benefits of cultural and public art activities.
- 2.13 Promote the benefits and importance of robust environmental health systems.

ECONOMY

3.0 GOALS

An adaptable, sustainable, diverse economy attracting industry and employment opportunities.

STRATEGIES

- 3.1 Work with Government agencies and Regional Development Boards to facilitate the communities' economic goals.
- 3.2 Facilitate private sector investment for appropriate developments through proactive planning and a positive approach.
- 3.3 Ensure there is sufficient suitably zoned land to accommodate demand.
- 3.4 Promote value adding to primary production to provide for additional employment opportunities.
- 3.5 Facilitate the provision of housing in appropriate locations to attract families to live in the area.
- 3.6 Prepare a Tourism Policy that guides Council in implementing the Regional Tourism Strategy.
- 3.7 Establish partnerships with State Government and private sector to provide tourism facilities to encourage longer stays and increase expenditure.
- 3.8 Work with the Regional Tourism Marketing Committees and adjoining councils to promote recreation and tourism activities.
- 3.9 Increase the focus on tourism through developing trails and facilities for visitors to encourage longer stays in these area.
- 3.10 Employ a Tourism and Economic Development Officer who could also assist Council to secure government funding for tourism, recreation and community initiatives.

INFRASTRUCTURE, ASSET AND FACILITY MANAGEMENT

4.0 GOALS

Well managed Council assets provided for the benefit of the overall community.

STRATEGIES

- 4.1 Continue to develop efficient work practices and undertake training where required, increasing productivity.
- 4.2 Develop and implement the Infrastructure and Asset Management Plan.
- 4.3 Identify surplus assets that can be realised for a greater community benefit and ensure that communities are effectively consulted about how these benefits are delivered.
- 4.4 Explore ways to involve the community in increasing the use of under-utilised assets that are valued by the community.
- 4.5 Encourage the adaptive re-use of historic buildings to assist in retaining the heritage character of townships.

GOVERNANCE

5.0 GOALS

A council that exhibits the highest values and principles in all aspects of its activities and identifies and incorporates community ideas, values and goals in its decision making process.

STRATEGIES

- 5.1 Strengthen the capacity of Elected Members to provide leadership and direction.
- 5.2 Provide support to attract and retain high quality Elected Member representation.
- 5.3 Develop a Training Plan to assist in providing appropriate training resources and access to relevant courses and seminars for Elected Members.

FINANCE AND ADMINISTRATION

6.0 GOALS

Accountable and responsible management of financial resources based on best practice principles and processes.

STRATEGIES

- 6.1 Create a working environment that fosters productivity and responsiveness.
- 6.2 Provide targeted staff training and development relevant to organisational needs.
- 6.3 Undertake a review of operations and procedures to ensure optimum efficiency.
- 6.4 Promote a consultative culture where staff are involved in the decision making process about their work environments.
- 6.5 Maximise opportunities for external funding, subject to those opportunities being consistent with Council's goals and strategies.
- 6.6 Develop and implement the Long Term Financial Management Plan.
- 6.7 Maintain a strong commitment to Occupational Health Safety and Welfare principles and a constant focus on public safety and risk management in all areas of operation.

Elected Members Structure

Mid Murray Council is a corporate body consisting of a Mayor and 11 Councillors.

Grants Commission General Purpose Grant	-3,182,198			-3,182,198
Other Property & Services	-44,117	47,883		-92,000

Projects for 2012/2013 include:-

- Plant Replacement Program

Strategic Objectives to be achieved:-

- Maintain and improve Council plant
- Maintain a strong commitment to Occupational Health Safety & Welfare principles and a constant focus on public safety and risk management in all areas of Council operations.

3. MEASURING PERFORMANCE – OBJECTIVES FOR THE YEAR

To enable both the Council and the community to assess Council's performance over the 2012/2013 year, "Performance Targets" have been set for a number of selected activities as shown below.

These "Performance Targets" will be reviewed throughout the year and at its conclusion. A report on the performance outcomes will then be included in the 2012/2013 Annual Report and the 2012/2013 Annual Business Plan.

Goal 1 – Continue to support small communities by working with community organisations and volunteers to optimise the use of existing facilities and improve and maintain services

	Activity	Performance Target
1	Joint project with Commercial Broadcasters to upgrade Digital TV Reception at Swan Reach and Mannum. Council to provide facilities and infrastructure, Commercial Broadcasters to provide equipment	Infrastructure upgrade completed by 31/10/2012
2	Develop in consultation with the Community, Community Plans for small townships.	Four community plans to be completed by 30/6/2013

Goal 2 – Recognise and protect our significant built and cultural heritage

	Activity	Performance Target
1	Heritage Places DPA	Statement of Intent approved by December 2012

Goal 3 – Ensure that the Development Plan incorporates sustainability principles in respect to all forms of development and facilitate the provision of suitably zoned land for residential, industrial, commercial and retail purposes

	Activity	Performance Target
1	River Murray Zone Minor Amendments DPA	Completion, Ministerial approval December 2012
2	Cadell Horticultural Policy Area DPA	Public consultation completed by March 2013
3	SBC River Murray Zone DPA	Public consultation completed by March 2013
4	SBC IWMP DPA	Public consultation completed by July 2013

Goal 4 – Facilitate private sector investment for appropriate developments through proactive planning and a positive approach

	Activity	Performance Target
1	Mannum Waters Development – Joint Road Construction – Belvedere Road	Completion of Belvedere Road by November 2012

Goal 5 – Develop a communication strategy to facilitate the effective provision of information

	Activity	Performance Target
1	Preparation of Marketing and Communication Plans and Strategies	Plan completed by November 2012

MEASURING PERFORMANCE – OBJECTIVES FOR THE YEAR CONT'D

Goal 6 – Continue to maintain and improve road system		
	Activity	Performance Target
1	Resealing 12 kilometres of road	Planned works completed by 30/6/2013
2	Resheeting of 30 kilometres of road	Planned works completed by 30/6/2013
3	Road Construction Program	Planned works completed by 30/6/2013
4	Preparation of a 10 year roadworks plan	To be completed by 31/12/2012
5	Stormwater Drainage Works, Adelaide Road	To be completed by 31/12/2012

Goal 7 – Prepare a Tourism Policy that guides Council in implementing the Regional Tourism Strategy.		
	Activity	Performance Target
1	Prepare a Tourism Action Plan and Tourism Development Policy for Council	To be completed by November 2012

Goal 8 – Promote the benefits of cultural and public art activities		
	Activity	Performance Target
1	Employment of a Country Arts Officer in partnership with the State Government	Position to be operational by September 2012

Goal 9 – Undertake streetscape and township improvements in accordance with Master Plans completed for various towns, staged within annual budget provisions		
	Activity	Performance Target
1	Truro Streetscape Project	Continuation of staged development in line with budget allocation completed by 30/6/2013

Goal 10 – Maintain efficient and effective operations and procedures		
	Activity	Performance Target
1	Continuation of Records Management Upgrade and disposal of old records	Planned consultancy and system upgrade completed by 30/6/2013
2	Review Asset Management Plan and Long Term Financial Plan	Completed by 30/6/2013
3	Review of Council's Strategic Plan	Completed by 31/10/2012
4	Upgrade of the 10 year Machinery Replacement Program	Completed by 30/6/2013
5	Revaluation of Land & Buildings and Insurance Valuation	Completed by 30/6/2013
6	Prepare a Marketing Plan for the Mannum Leisure Centre	Completed by 31/12/2012
7	Carry out Electoral Review	Consultation completed by 30/6/2013

MEASURING PERFORMANCE – OBJECTIVES FOR THE YEAR CONT'D

Goal 11 – Promote the environmental benefits of CWMS and alternative wastewater treatment systems including the re-use of treated wastewater, where applicable

	Activity	Performance Target
1	Joint venture with DWLBC re the upgrade/operation & maintenance of waste water treatment plants associated with house boat pump out stations	Agreement in place by August 2012
2	Undertake a review of Grant Funding Priorities for CWMS installation in Townships not currently serviced with systems.	To be completed by December 2012
3	Stormwater Management Plan for Five River Towns	Meeting to be held with the Authority and application lodged by December 2012

Goal 12 – Provide services and facilities to support an ageing population and for those people with disabilities

	Activity	Performance Target
1	Review Disabled Access Action Plan	Plan reviewed by 31/12/2012

Goal 13 – Acknowledge the ongoing relationship of Aboriginal people with the land, the River and their resources

	Activity	Performance Target
1	Developing an Indigenous Land Use Agreement with the Ngadjuri Group	ILUA Agreement discussions to commence in 2012

Goal 14 – An adaptable, sustainable, diverse economy attracting industry and employment opportunities

	Activity	Performance Target
1	Preparation of Mid Murray Prospectus – Ready for Business & Place to Live	To be completed by end of December 2012

Goal 15 – Explore ways to involve the community in increasing the use of under-utilised assets that are valued by the community

	Activity	Performance Target
1	Complete renovations to former Mannum Primary School Building for use by community groups	Complete renovations by December 2012 and tenanted by February 2013

Goal 16 – Increase the focus on tourism through developing trails and facilities for visitors to encourage longer stays in the area.

	Activity	Performance Target
1	RV Friendly Town Project	Progressively roll out the RV Friendly Town/Places Project across the district by Feb 2013

CUSTOMER SATISFACTION SURVEY

Mid Murray Council participates in the Local Government Associations survey of property owners in the Council area to assess their satisfaction with the four key areas of Governance, Community Satisfaction, Financial and Asset Management, and Quality of Life. It is Council's aim to achieve at least an 80% customer satisfaction rating in the categories of:

- Community Perception of Quality of Life
- Safety and Security
- General Satisfaction
- Asset Management
- Awareness of Strategic Direction
- Community Consultation
- Public Access

The survey results will be made public when available.

FINANCIAL INDICATORS

Whilst financial indicators provide a ready assessment of financial performance and sustainability, they need to be interpreted in the context of Council's operating environment. They do not replace the need for sound judgment, taking into account community demands and cost pressures.

	TARGET	2013	2012	2011	2010
Operating Surplus/(Deficit)	SURPLUS	'000 -45	'000 217	'000 -135	'000 78
Operating Surplus/(Deficit) Ratio	0% to 15%	0%	2%	-1%	1%
Net Financial Liabilities	'000 <\$10,925	'000 \$9,874	'000 \$9,448	'000 \$6,730	'000 \$5,672
Net Financial Liabilities Ratio	0% to 60%	55%	58%	44%	38%
Interest Cover Ratio	<10%	2.2%	1.9%	2.6%	2.1%
Asset Sustainability Ratio	90% to 110%	103%	86%	70%	52%
Asset Consumption Ratio	40% to 80%	58%	64%	65%	66%

Indicator 1 – Operating Surplus

(the difference between day to day income and expenses for the period)

An operating surplus indicates the extent to which operating income is sufficient to meet operating expenses including depreciation and consequently the burden of expenses is being met by current ratepayers.

An operating deficit occurs when total operating expenses exceed total operating revenues and consequently the burden of a portion of expenses will need to be met by future ratepayers.

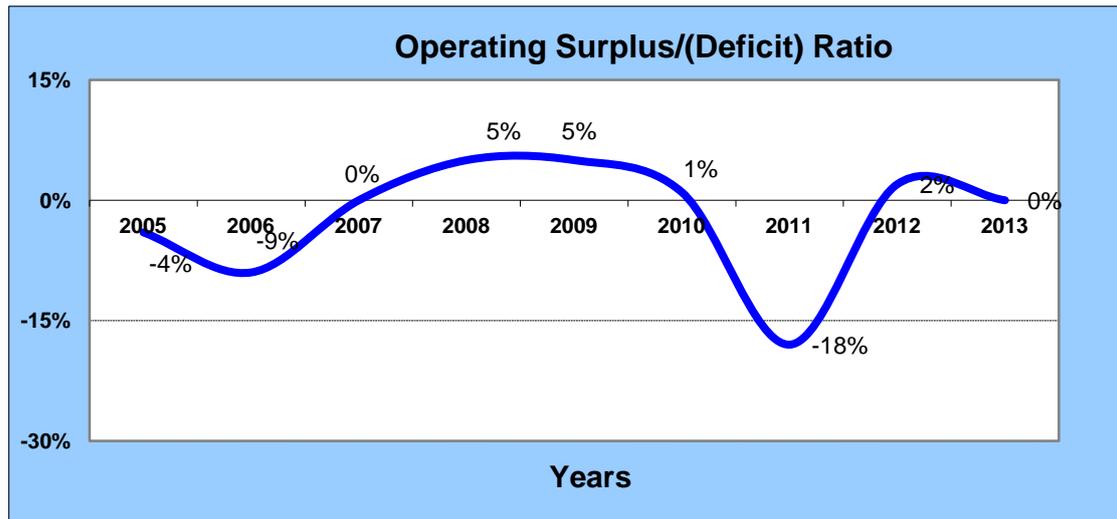

FINANCIAL INDICATORS CONT'D

Performance Target:
To achieve and maintain an operating surplus.

Indicator 2 – Operating Surplus Ratio

(by what percentage does the major controllable income source vary from day to day expenses)

This ratio expresses the operating surplus (deficit) as a percentage of general and other rates, net of rebates.

A negative ratio indicates the percentage increase in total rates required to achieve a break-even operating result.

A positive ratio indicates the percentage of total rates available to fund capital expenditure over and above the level of depreciation expense without increasing Council's level of net financial liabilities. If this amount is not required for capital expenditure it reduces the level of net financial liabilities.

Performance Target:
To achieve and maintain an operating surplus ratio between 0% and 15%.

Indicator 3 – Net Financial Liabilities

(what is owed to others less money held, invested or owed to Council)

Net financial liabilities measure Council's total indebtedness, relative to money held, invested or owed to Council.

Net financial liabilities is a broader measure than net debt as it includes all of a Council's obligations including provisions for employee entitlements and creditors.

FINANCIAL INDICATORS CONT'D

The level of net financial liabilities increases when a net borrowing result occurs in a financial year and will result in Council incurring liabilities and/or reducing financial assets.

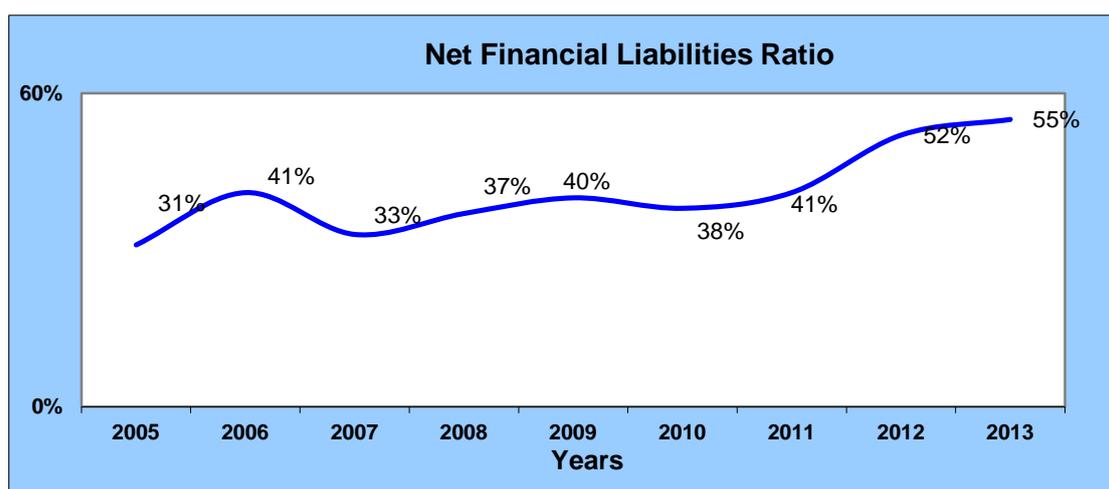

The level of net financial liabilities decreases when a net lending result occurs in a financial year and will result in Council purchasing financial assets and/or repaying liabilities.

Performance Target:

Council's level of net financial liabilities is no greater than 60% of its total operating income.

Indicator 4 – Net Financial Liabilities Ratio

(how significant is the net amount owed compared with income)

Performance Target:

Net financial liabilities ratio is no greater than 60% of total operating income.

Indicator 5 – Interest Cover Ratio

(how much income is used in paying interest on loans)

The ratio indicates the extent to which Council's operating income are committed to interest expenses.

Performance Target:

Net interest is less than 10% of operating income.

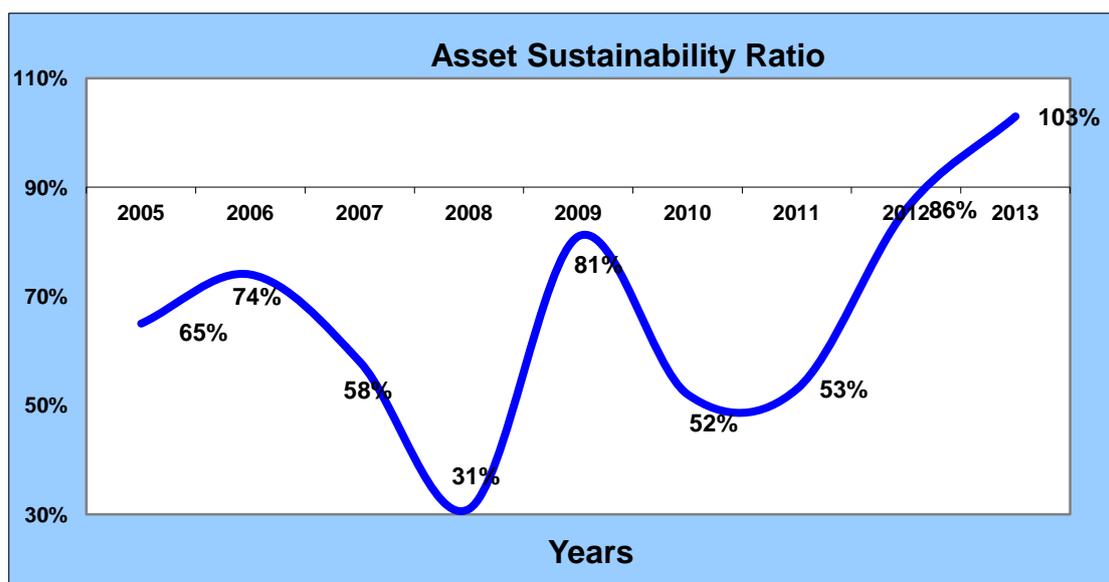

FINANCIAL INDICATORS CONT'D

Indicator 6 – Asset Sustainability Ratio

(are assets being replaced at the rate they are wearing out)

Capital expenditure on renewal or replacement of existing depreciable assets/depreciation expenses.

Performance Target:

Capital outlays on renewing/replacing assets net of proceeds from sale of replaced assets is between 90% and 110% of depreciation.

Indicator 7 – Asset Consumption Ratio

(the average proportion of (as new condition' left in assets)

Total written down value of depreciable assets/Total reported value of depreciable assets before accumulated depreciation.

It highlights the aged condition of Councils stock of physical assets and the potential magnitude of capital outlays required in future to preserve their service potential.

Performance Target:

The average proportion of 'as new condition' left in assets is between 40% and 80%.

4. SIGNIFICANT INFLUENCES AND PRIORITIES

A number of significant factors have influenced the preparation of the Council's 2012/2013 annual business plan. These include:

- Local Government Cost Index increases on relevant goods and services of 4.4% for the year ended December 2011;
- enterprise bargaining agreements which provide for wages and salary increases of 4.25%;
- requirements to maintain and improve infrastructure assets to community and acceptable standards including roads, footpaths, lighting, stormwater drainage, street trees and plantings, open space and Council properties;
- service and infrastructure needs for a growing Council area, including finding funding to advance disabled access plans, township streetscape plans, and land management and asset renewal plans;
- commitments to continuing projects and partnership initiatives over more than one year;
- considerable increases in waste management costs and the need to provide funding for rehabilitation of waste sites as required by the Environment Protection Authority;
- requests from ratepayers for a higher level of service in the control of motor bikes on road reserves;
- fluctuating River Murray water levels has resulted in the need to expend additional funds keeping riverbanks safe and boat ramps useable;
- the need to achieve a high level of roadworks output in order to utilise Roads to Recovery Grant funds;
- pressure for the employment of additional staff in certain areas so that State Government Legislative requirements can be met.
- The anticipated operational cost increases due to the implementation of the Federal Government's Carbon Tax.

In response to these factors, and to minimise the burden on ratepayers, the annual business plan has been prepared within the following guidelines;

- Given continuing affects of the climatic and economic conditions within our Council area, there is a need to keep rate rises as low as possible, but Council cannot ignore cost increases forced upon it by the State and Federal Governments and problems associated with the River Murray.
- South Australian Strategic Plan.
- Regional Waste Management Plan.
- Volatile Fuel and Oil costs.
- Major projects including those partnered with other entities i.e. Federal, State, community and private.
- The need to ensure that Council is adequately resourced to comply with legislative requirements.

SIGNIFICANT INFLUENCES AND PRIORITIES CONT'D

The Council's priorities for 2012/2013 are:

- Completion of Development Plan Amendments which will allow for continued development to occur within our Council area.
- A comprehensive capital works program of \$6.5 M, including \$5.7 M for the replacement and renewal of existing assets and \$0.8 M for new and upgraded assets.
- Review and continuation of existing service levels provided to our community.
- Provision of community and youth services.
- New funding for Country Arts Officer jointly funded with the State Government.
- Continuation of a program to bring records management processes up to State legislative requirements.
- Reseal of bitumen roads.
- Addressing the future of our Waste Disposal Sites and their rehabilitation.
- Introduction of a Waste Recycling service.
- Continuation of flood repair works following severe flood damage in 2010/11.

Budget Financial Statements can be found under Appendix B.

5. CONTINUING SERVICES

All Councils have responsibilities under the Local Government Act and other relevant legislation. These include:

- regulatory activities e.g. maintaining the voters roll and supporting the elected Council;
- setting rates, preparing an annual budget and determining longer-term strategic management plans for the area;
- management of basic infrastructure including roads, footpaths, parks, sporting facilities, public open space, street lighting and storm-water drainage;
- street cleaning and rubbish collection;
- development planning and control, including building safety assessment;
- various environmental health services.

In response to community needs the Council also provides further services and programs including:

- *Libraries;*
- *Community and Day Care Centres;*
- *Economic development;*
- *Environmental programs;*
- *Community programs;*
- *Effluent Drainage Schemes;*
- *Tourist facilities including information Services;*
- *Aged Care and Youth Services;*
- *On-street parking management to maximise use of kerbside space.*

In all services the Council seeks to be responsive to changing needs. Community surveys are undertaken to check levels of satisfaction and areas for improvement.

The Council also operates a number of facilities on a fee for service basis. These provide important community benefits while also generating revenue for services and projects of benefit to the Mid Murray Council.

- *Caravan Parks;*
- *Waste Management Facilities;*
- *Recreation facilities including swimming pools, recreation centre, museums etc.*

Please refer to Appendix A for a more detailed explanation of recurrent expenditure.

6. LINKING TO STATE STRATEGIC PLAN

South Australia's Strategic Plan is a commitment to making this State the best it can be – prosperous, environmentally rich, culturally stimulating, offering its citizens every opportunity to live well and succeed. These aspirations are shared by the Mid Murray Council for our own area. Community consultation is an important part in the continual improvement to plans Mid Murray Council has for its area.

A refreshed State-Local Government Relations Agreement was signed on 17 May 2012. A Schedule of Priorities as a focus for cooperative work by State and Local Government in 2012-13 was also signed. This identified seven priority focus areas for the State:-

- Creating a vibrant city
- Renewing our neighbourhoods to make them safe and healthy
- An affordable place to live
- Every chance for every child
- Growing advanced manufacturing
- Realising the benefits of the mining boom for all South Australians
- Clean green food as our competitive edge.

7. RELATIONSHIP TO LONG TERM FINANCIAL PLAN AND ASSET MANAGEMENT PLAN

Council's first Asset Management Plan and new Long Term Financial Plan were adopted by Council in January 2009. In preparing the 2012/2013 Budget and Annual Business Plan regard was given to these plans. Mid Murray Council is a progressive Council and looks to go forward with the development of new and improved services for its ratepayers.

The Long Term Financial Plan as adopted has focused on operating expenditure and income, as well as the renewal of existing assets.

Council has over a number of years had plans drawn up for new infrastructure and services. These include:

- Additional Stormwater infrastructure for townships.
- Township streetscape improvements.

Other areas considered in the yearly review of the Long Term Financial Plan and Asset Management Plan are:

- sealing of unsealed roads within townships and to seal some strategic roads within rural areas;
- construction and improvement to footpaths and public conveniences;
- examining the goals within Councils Strategic Management Plan to ensure that they have been included;
- additional staffing positions;
- the financing of plant and machinery
- Social Capital infrastructure and services.

Council currently borrows funds each year to purchase new assets, and these borrowings have been steadily increasing. The Long Term Financial Plan provides the guidance to ensure that new assets and services can be financed without having to increase rates to an unacceptable level.

8. FINANCIAL SUSTAINABILITY

Mid Murray Council is committed to implementing the recommendations from the Local Government's Independent Inquiry into the Financial Sustainability of SA Local Government. The Local Government Association is guiding Councils in a staged implementation program

Mid Murray Council has been rated as a level 4 under the Financial Sustainability Criteria. This means that if unanticipated financial shocks/risks eventuate on top of known developments, the Council should be able to avoid a substantial per-property rates increase with a moderate margin of comfort provided its revenue and spending policies remain unchanged over time.

Findings of the report included:

Most Councils are running deficit budgets and are struggling to meet the needs of communities.

Councils have put the needs and demands of communities ahead of their own financial sustainability.

Councils have not received any "windfalls" from property valuation growth.

Falls in the growth of Federal and State Government funding since the late 1980s are partially to blame for the current position of Councils.

Councils cannot and should not continue to operate as if other Governments will meet Council funding expectations.

The Local Government Association of South Australia continue to support the Financial Sustainability Initiatives by developing and updating information papers on best practice for governance and finance within Local Government. Training programs are offered for staff and elected members in these areas on a yearly basis. Recent information papers have been developed for Prudential Management, Service Range and Levels, Monitoring Council Budget Performance and Financial Governance.

9. FUNDING THE BUSINESS PLAN

Consistent with the Council's long-term financial plan, an operating deficit of \$45,340 is targeted for 2012/13. This is a small operating deficit, given additional costs and pressures. The operating surplus/deficit measures the difference between operating revenue and expenses for the period. The Council's long-term financial sustainability is dependent on ensuring that, on average over time, its expenses are less than its revenue.

The Council's revenue includes \$9,249,171 to be raised from general rates and \$1,308,331 from separate rates (NRM Levy, CWMS, TV, Water and Waste Recycling Levy).

It is proposed to borrow \$1,400,000 from the Local Government Finance Authority to finance capital works.

Other sources of revenue for the Council are:

User Pay charges set by Council

These comprise charges for the Council's fee based facilities such as: Admission charges; Caravan Park fees; Cemetery fees; Waste Management Charges and waste transfer station fees, sundry sales; hall hire, equipment hire, client contributions (home assist).

Statutory Charges set by State Government

These are fees and charges from regulatory services set by regulation and collected by the Council for regulatory functions including: Development Act fees, Town planning fees; rate searches; Animal registration fees and fines; Parking fines and expiation fees, Health fines; Environmental control fines; Litter control fines; Septic tank fees; and other licence fees/fines. Revenues generally off-set the cost of the service.

Grants and Partnerships

The Council normally seeks to attract as much grant funding as possible from other levels of government, and major projects of wider State benefit are usually jointly funded in partnership with the State government and other relevant parties.

Impact on Council's Financial Position

After taking account of planned net outlays on existing and new assets in 2012/2013, the Council's net lending (net borrowing) in 2012/2013 is expected to be approximately \$970,574. Accordingly, the level of the Council's net financial liabilities is expected to increase by approximately that amount, to be approximately \$9,874,577 at 30 June 2013. Net financial liabilities is a key indicator of the Council's financial position. It measures total liabilities less financial assets (i.e. what the Council owes to others, less money the Council has or is owed). The expected level of net financial liabilities at 30 June 2013 represents 55% of estimated operating revenue in 2012/2013. This compares with a targeted level for this indicator of under 60% of revenue.

10. RATING POLICY STATEMENT

Council rates are imposed on all rateable properties in the Council area in accordance with the provisions of the Local Government Act.

Council is only able to provide the works and services desired by the community by the imposition and collection of Council rates which are the principal source of revenue.

Mid Murray Council's policy for setting and collecting rates from its community covers:

- method used to value land
- adoption of valuations
- business impact statement
- Council's revenue raising powers
- general rates
- differential general rates
- minimum rate
- service rates and/or charges
- Natural Resource Levy (the Council's collection role)
- rate concessions
- payment of rates
- late payment of rates
- remission and postponement of rates
- rebate of rates
- sale of land for non-payment of rates
- disclaimer

MANNUM SA 5238

RATING POLICY STATEMENT CONT'D

STRATEGIC FOCUS

In setting its rates for the financial year the Council has considered the following:

- its current strategic plan, which was adopted on the 10 July 2006 and revised on 8 December 2008;
- the strategic plan was developed following an extensive community consultation program;
- the current economic climate in which the major factors are continued poor full employment prospects, global recession and downturn in the local economy;
- the specific issues faced by our community, particularly the continuing affects of the current climatic drought conditions and possibility of locust and mice plagues;
- the budget for the 2012/2013 financial year and long term financial plan;
- the impact of rates on the community including;
 1. householders, businesses, primary producers and holiday home owners;
 2. the broad principle of achieving equity in the distribution of the rate burden;
 3. minimising the level of general rates required by levying fees and charges for goods and services on a user pays basis where that is possible to recover the full cost of operating or providing the service or goods;
- as may be relevant, the Council's consideration of issues of consistency and comparability across Council areas in the imposition of rates on sectors of the community such as business;
- community feedback based on the level of community concerns expressed regarding the need for improved or new services, or the level of rates being paid whether in the whole area or specific parts;
- Council's Debt Strategy;
- funding for future asset replacement;
- issues of equity arising from circumstances where ratepayers provide or maintain infrastructure that might otherwise be provided or maintained by Council and whether discretionary rebates will be granted.

Council's Strategic Management Plan, Annual Business Plan and Budget are available for inspection at the Council offices at Mannum, Cambrai and Morgan.

Council has developed a Community Consultation Policy.

Decisions on budget allocations for works and the provision of services are made by elected members who are the eyes and ears of our community.

Ratepayers and electors can provide information to the Council in writing addressed to the CEO, through their elected representative or by personal delegation to a meeting of Council.

Levels of rating are influenced by the demographics of our area (i.e. size of area, number and population of towns, length of road network to be maintained and total population).

RATING POLICY STATEMENT CONT'D

Business Impact Statement assessing the impact of the Council's rates on businesses in the area. No major rate rises are levied on businesses which provides them with the opportunity to set their own budgets confident that there will be no major variation in rates from year to year. This is assuming that valuation rises are consistent across the Council area.

1. **METHOD USED TO VALUE LAND**

Councils may adopt one of three valuation methodologies to value the properties in its area. They are:

- *Capital Value* – the value of the land and all the improvements on the land;
- *Site Value* – the value of the land and any improvements which permanently affect the amenity of use of the land, such as drainage works, but excluding the value of buildings and other improvements;
- *Annual Value* – a valuation of the rental potential of the property.

The Council has decided to continue to use capital value as the basis for valuing land within the Council area. The Council considers that this method of valuing land provides the fairest method of distributing the rate burden across all ratepayers on the following basis:

- Rates constitute a system of taxation and the equity principle of taxation requires that ratepayers of similar wealth pay similar taxes and ratepayers of greater wealth pay more tax than ratepayers of lesser wealth;
- Property value is a relatively good indicator of wealth, and capital value, which closely approximates the market value of a property, provides the best indicator of overall property value.

2. **ADOPTION OF VALUATIONS**

A Council may employ or engage a Valuer to value the land in the area or it may use the valuations provided by the Valuer General, or it may use a combination of both subject to certain restrictions. The Valuer General is a statutory officer appointed by the Governor.

The Council has adopted the valuations made by the Valuer-General and provided to the Council in March 2012. If a ratepayer is dissatisfied with the valuation made by the Valuer-General then the ratepayer may object to the State Valuation Office in writing, within 60 days of receiving the notice of the valuation, explaining the basis for the objection, provided they have not:

- (a) previously received a notice of this valuation under the Local Government Act, in which case the objection period is 60 days from the receipt of the first notice;
- (b) this 60 day objection period may be extended by the Valuer-General where it can be shown there is reasonable cause or
- (c) previously had an objection to the valuation considered by the Valuer-General. The address of the office of the Valuer-General is:
State Valuation Office
GPO Box 1354
Adelaide SA 5001
or Email: lsgobjections@sa.gov.au

RATING POLICY STATEMENT CONT'D

and the telephone number is 1300 653 345. Please note that the Council has no role in this process. It is also important to note that the lodgement of an objection does not change the due date for the payment of rates.

2.1 Notional Values

Certain properties may be eligible for a notional value, where the property is the principal place of residence of a ratepayer, under the Valuation of Land Act 1971. This also relates to some primary production land or where there is State Heritage recognition.

3. BUSINESS IMPACT STATEMENT

The Council has considered the impact of rates on all businesses in the Council area, including primary production. In considering the impact Council assessed the following matters:

- Council consultations with business groups, including primary producers;
- The equity of the distribution of the rate burden between classes of ratepayers;
- Council's policy on facilitating local economic development;
- Information from the Australian Bureau of Statistics on business and farm incomes, compared with average resident incomes;
- Current local, state and national economic conditions and expected changes during the next financial year;
- changes in the valuation of all properties from the previous financial year;
- specific Council projects for the coming year that will solely or principally benefit businesses and primary producers;
- specific infrastructure maintenance issues that will solely or principally benefit businesses and primary producers;
- the profile of businesses including the size, range, type and level of employment provided;
- the affects of the climatic drought conditions;
- and the affects of the global economic recession.

4. COUNCIL'S REVENUE RAISING POWERS

All land within a Council area, except for land specifically exempt (e.g. crown land, Council occupied land and other land prescribed in the Local Government Act – and Section 147 of the Act), is rateable. The Local Government Act provides for a Council to raise revenue for the broad purposes of the Council through a general rate, which applies to all rateable properties, or through differential general rates, which apply to classes of properties. In addition, Council can raise separate rates, for specific areas of the Council or service rates or charges for specific services. The Council also raises revenue through fees and charges, which are set giving consideration to the cost of the service provided and any equity issues.

RATING POLICY STATEMENT CONT'D

5. GENERAL RATES

The Council has decided to impose differential general rates on the following classes of properties:

- Between rateable property within townships and outside of townships;
- Between land use categories as described in the Local Government (Land Use) Regulations;
- Council reached its decision based on historical rating practices in the pre-amalgamated Councils and in particular the amalgamation proposal statement "The new Council will be extremely cautious and sensitive to ensure fairness and equity in establishing rating parity within the legislative requirement and time frame".

It is proposed to raise general rates of \$9,249,171 in a total revenue budget of \$18,208,688.

Differential rates are based on the different level of services and infrastructure available to residents of township areas in comparison to residents of residential type properties located outside of the townships and in comparison to rural properties:

- Townships are generally provided with sealed roads, kerbing, footpaths, stormwater drainage, street lighting, parks & gardens, recreation reserves, wheelie bins and a weekly domestic garbage collection service, town planning and library services.
- The majority of residential properties outside of townships are provided with all weather road access and in some instances these roads are bituminised, banks of wheelie bins for the collection of domestic garbage, some areas have street lighting, development plan controls.
- Rural properties are provided with all weather road access and in some areas these roads are bituminised. Development Plan controls aim to retain primary production land.

RATES

	2011/2012			2012/2013			% Increase over 2011/2012
	Valuation \$	Rate in \$	Actual Rates \$	Valuation \$	Rate in \$	Proposed Rates \$	
Non-Rateables	'000			'000			
Mannum Township	60,738			59,672			
Minimum		0.47	1,521,480	321,034	0.5155	1,637,016	7.59%
Townships	188,637			187,554			
Minimum		0.47	899,390		0.5069	967,139	7.53%

Percentage of Properties on the Minimum Rate			25.13%			25.76%	

Annual Business Plan 2012/2013

RATING POLICY STATEMENT CONT'D

Land use is used as a factor to levy differential rates. If a ratepayer believes that a particular property has been wrongly classified by the Council as to its land use, then the ratepayer may object to that land use (to the Council) within 60 days of being notified. The objection must be in writing setting out the basis for the objection and details of the predominant land use that in the opinion of the ratepayer, should be attributed to that property. The Council may then decide the objection as it sees fit and notify the ratepayer. A ratepayer also has the right to appeal against the Council's decision to the Land and Valuation Court.

Objections to the Council's land use decision may be lodged with the Land & Valuation Court. Please contact Council's Rates Officer on 8569 0100 who will provide information to assist you in lodging an objection. The Council will provide, on request, a copy of Section 156 of the Local Government Act which sets out the rights and obligations of ratepayers in respect of objections to a land use. It is important to note that the lodgement of an objection does not change the due date for the payment of rates.

6. MINIMUM RATE

A Council may impose a minimum amount payable by way of rates, provided that it has not imposed a fixed charge. Where two or more adjoining properties have the same owner and are occupied by the same occupier, only one minimum rate is payable by the ratepayer. Where a Council imposes a minimum rate it must not apply to more than 35% of properties in the Council area.

The budget provides for a minimum rate of \$516.00

The reasons for imposing a minimum rate are the Council considers it appropriate that all rateable properties make a minimum level of contribution to the cost of administering the Council's activities, and creating and maintaining the physical infrastructure that supports each property.

The minimum rate affects 2,602 properties being 25.76% of the total and raises \$591,453 additional in rates through the use of a minimum rate, which represents 6.4% of total general rate revenue.

7. SERVICE CHARGE

The Council manages Community Wastewater Management Systems (CWMS) for various areas within the Council which provides benefits to those connected to the schemes. A service charge is raised to maintain the systems. The revenue raised from this charge can only be applied to maintenance and replacement of the scheme and only those properties receiving the service will be levied.

The charge is levied on the concept of user pays based on the cost to operate and maintain the service, and the cost to improve or replace the service, and recognition that the value of a property is enhanced by the availability of the service.

RATING POLICY STATEMENT CONT'D

To recover the cost of construction property owners have the choice of paying their share up front, or by repayments of loans taken out over a 10 year period. Following completion of the schemes a service charge will be raised.

For the 2012/2013 financial year the following service charges will apply to properties involved in these schemes:

Bolto	\$450.00 per unit maintenance
Big Bend	\$400.00 per unit maintenance
Blanchetown	\$200.00 per unit maintenance
Bowhill	\$250.00 per unit maintenance
Brenda Park/Morphett Flat	\$300.00 per unit maintenance
Caloote Landing Area	\$300.00 per unit maintenance
Caurnamont	\$250.00 per unit maintenance
Five Mile/Kia Marina	\$550.00 per unit maintenance
Greenways Landing	\$650.00 per unit maintenance
Idyll Acres	\$450.00 per unit maintenance
Kroehn's Landing	\$700.00 per unit maintenance
Marks Landing	\$200.00 per unit maintenance
North West Bend/Beaumonts	\$300.00 per unit maintenance
Pelican Point	\$350.00 per unit maintenance
Pellaring Flat	\$350.00 per unit maintenance
North Punyelroo	\$250.00 per unit maintenance
Scotts Creek	\$250.00 per unit maintenance
Scrubby Flat Area	\$650.00 per unit maintenance
Seven Mile	\$650.00 per unit maintenance
South Punyelroo	\$300.00 per unit maintenance
Swan Reach Area	\$450.00 per unit maintenance
Teal Flat	\$350.00 per unit maintenance
Old Teal Flat	\$550.00 per unit maintenance
The Rocks	\$650.00 per unit maintenance
Walker Flat Area	\$350.00 per unit maintenance
Truro	\$450.00 per unit maintenance
Julanker/Younghusband	\$350.00 per unit maintenance
Rob Loxton Road	\$350.00 per unit maintenance
Blanchetown	\$646.00 per unit capital
Brenda Park/Morphett Flat area	\$557.00 per unit capital
Marks Landing area	\$724.00 per unit capital
Pelican Point	\$988.00 per unit capital
Scotts Creek	\$756.00 per unit capital
Teal Flat	\$764.00 per unit capital
South Punyelroo	\$898.00 per unit capital
North West Bend/Beaumonts	\$937.00 per unit capital
Idyll Acres	\$1,141.00 per unit capital
Rob Loxton Road	\$725.00 per unit capital
Julanker/Younghusband	\$1,778.00 per unit capital

RATING POLICY STATEMENT CONT'D

Where Council takes over the management of any other schemes during the financial year a service charge is raised on a pro rata basis.

Service Charges are set in accordance with Section 155 of the Local Government Act 1999. These charges are based on recovering the ongoing costs of management and maintenance of the scheme from the residents serviced by the schemes. Charges for 2012/2013 are:

Bowhill Multi-Access Television System \$120.00 per occupied property.

Bowhill Water Supply System \$213.00 per property serviced

by the system which includes the consumption of up to 120 kilolitres of water plus an excess water charge of 75 cents per kilolitre for water consumed in excess of 120 kilolitres during the 12 month period.

CHANGES TO EFFLUENT RATE MAINTENANCE CHARGE:

Following an audit carried out by United Water on all of the CWMS Schemes in the Mid Murray Council area, Council proposes to phase in an increase in the maintenance rates for CWMS Schemes, but to a lesser extent than was recommended in the audit. It is recognised that it is more expensive to maintain many small schemes than one large scheme. The principles of social justice and capacity to pay are taken into consideration when setting individual scheme rates. It is also recognised that the State Government charges for sewerage services are comparable with Mid Murray Councils charges.

In comparison the State Government's SA Water Department charge 0.1526% of property value or \$325.00 minimum per annum for Country residential properties. On a property valued at \$250,000 this would equate to a yearly charge of \$381.50.

KERBSIDE COLLECTION OF RECYCLABLES SERVICE CHARGE:

In response to community requests for a recycling service and following public consultation which approved the service and charges, Council will in July, 2012/13 commence a fortnightly collection service for recyclable materials for residences within the townships of Barton, Blanchetown, Cadell, Cambrai, Dutton, Greenways, Keyneton, Mannum, Morgan, Palmer, Nildottie, Purnong, Sedan, Swan Reach, Truro and Tungkillo. A separate charge of \$74.00 per property to which the service is made available will be levied in order to cover the costs in supplying the service, in accordance with provisions contained under the Local Government Act.

RATING POLICY STATEMENT CONT'D

8. NATURAL RESOURCE MANAGEMENT ACT

State Government legislation requires Council to raise a separate rate to fund a Natural Resource Management Board established under the Natural Resource Management Act. This separate rate is identified separately on rate notices, and Council pays these funds to the Board to fund various environmental projects, management of the River Murray Catchment, soil conservation and pest animals and weeds control.

Council is part of the South Australian Murray-Darling Basin Natural Resources Management Region and the Board has determined that the Councils that are part of this region will raise their contribution by way of a rate in the dollar on the value of rateable land within the area of the Council.

Further information on the NRM Levy and how the funds will be spent can be found on the South Australian Murray-Darling Basin Natural Resources Management Board Website: www.samdbnrm.sa.gov.au or telephone 85321432

9. RATE CONCESSIONS

The State Government, in providing equity across SA in this area, funds a range of concessions on Council rates. The concessions are administered by various State Agencies who determine eligibility and pay the concession directly to Council on behalf of the ratepayer. Concessions are available only on the principal place of residence.

Ratepayers who believe they are entitled to a concession should not withhold payment of rates pending assessment of an application by the State Government as penalties apply to overdue rates. A refund will be paid to an eligible person if Council is advised that a concession applies and the rates have already been paid in full.

9.1 State Senior Card Ratepayer (self funded retiree)

If you are a self funded retiree and currently hold a State Seniors Card you may be eligible for a concession toward Council Rates. In the case of couples, both must qualify, or if only one holds a State Senior's Card, the other must not be in paid employment for more than 20 hours per week. If you have not received a concession on your rates notice or would like further information please contact the RevenueSA Call Centre on 1300 366 150.

9.2 Pensioner Concession

If you are an eligible pensioner you may be entitled to a rebate on Council rates (and water and effluent charges where applicable), if you do not currently receive one.

An eligible pensioner must hold a Pension Card, State Concession Card or a Repatriation Health Card marked TPI Gold, EDA Gold or War Widow. They must also be responsible for the payment of rates on the property for which they are claiming a concession.

RATING POLICY STATEMENT CONT'D

Applications are administered by the State Government. Application forms, which include information on the concessions, are available from the Council, SA Water Corporation and its District Offices or the Department for Communities and Social Inclusion. This concession is administered by SA Water on behalf of the department and further information can be obtained by telephoning Concessions Hotline 1800 307 758 or visit www.sa.gov.au/concessions. Payment of rates must not be withheld pending assessment of an application by the State Government as penalties apply to unpaid rates. A refund will be paid if Council is advised that a concession applies and the rates have already been paid in full.

9.3 Other Concessions

The Department for Families and Communities administers Council rate concessions available to a range of eligible persons receiving State and Commonwealth allowances. This includes, but is not limited to, ratepayers who are in receipt of: Austudy, Newstart, Parenting Payment, Partner Allowance, Sickness Allowance, Special Benefit, Widow Allowance, Youth Allowance, Abstudy, CDEP or a New Enterprise Initiative Scheme. It may also apply to ratepayers in receipt of a pension as a war widow under legislation of the United Kingdom or New Zealand and the holders of a State Concession Card issued by the Department for Families and Communities. All enquiries should be directed to the Department for Communities and Social Inclusion (refer to page 46 of the Barossa Valley, Murray Lands, Riverland, South Coast and Kangaroo Island White Pages for telephone details).

10. PAYMENT OF RATES

The payment of rates will be as follows:

All rates are payable in four equal (or approximately equal) quarterly instalments (unless otherwise agreed with the Principal Ratepayer) with instalments falling due on the following dates:

1 st quarterly instalment due on	14th September, 2012
2 nd quarterly instalment due on	14th December, 2012
3 rd quarterly instalment due on	15th March, 2013
4 th quarterly instalment due on	14th June, 2013

provided that in cases where the initial account requiring payment of rates is not sent at least 30 days prior to the due date for payment, or an amended account is required to be sent, authority to fix the date by which rates must be paid in respect of those assessments affected is delegated to the Chief Executive Officer.

RATING POLICY STATEMENT CONT'D

Rates may be paid:

- In person at the Council Office or branches being 49 Adelaide Road, Mannum; Main Street, Cambrai; or cnr. Fourth & Eighth Street, Morgan between the hours of 9 am and 5 pm Monday to Friday;
- By following the BPay directions located on the rate notice;
- By post to PO Box 28, Mannum SA 5238;
- In person at any Post Office (please present rate notice when paying);
- By Telephone (24 hour service), direct debit and/or credit card accepted (follow instructions on rate notice);
- Payments via Internet.

Credit card & EFTPOS facilities are available at Mannum, Morgan and Cambrai. Telephone payments to 1300 301 090 will accept Mastercard, Visa, American Express and Diners Club cards.

Any ratepayer who may, or is likely to, experience difficulty with meeting the standard payment arrangements is invited to contact Council's Rates and Assessment Officer on 08 85690100 to discuss alternative payment arrangements. Such inquiries are treated confidentially by the Council.

11. LATE PAYMENT OF RATES

The Local Government Act provides that Councils impose a penalty of 2% on any payment for rates, whether instalment or otherwise, that is received late. A payment that continues to be late is then charged an interest rate, set each year according to a formula in the Act, for each month it continues to be late. This formula is calculated as follows:

$$P = \frac{\text{CADR} + 3\%}{12}$$

where 'P' is the prescribed percentage and 'CADR' is the cash advance debenture rate for that financial year.

The purpose of this penalty is to act as a genuine deterrent to ratepayers who might otherwise fail to pay their rates on time, to allow Councils to recover the administrative cost of following up unpaid rates and to cover any interest cost the Council may meet because it has not received the rates on time.

The Council imposes late payment penalties strictly in accordance with the Local Government Act.

Council may remit fines in accordance with its Fines and Interest Rating Policy however all requests must be made in writing.

RATING POLICY STATEMENT CONT'D

If an instalment is not paid by the due date, fines will appear on the next rates notice. Should rate instalments not be paid, Council may forward a "letter of demand" (being our final notice) requesting full payment within (14) days of date of letter. Failing any response, the outstanding account will be placed in the hands of Council's Collection Agency. The debt collection agency charges collection fees to the ratepayer. Legal fees are also charged to the ratepayer.

When the Council receives a payment in respect of overdue rates the Council applies the money received as follows:

- first – to satisfy any costs awarded in connection with court proceedings or debt collection recovery;
- second – to satisfy any interest and fines;
- third – in payment of any overdue rates;
- fourth – in payment of current rates, in chronological order (starting with the oldest account first).

12. REMISSION AND POSTPONEMENT OF RATES

Provision exists under Section 182 (1) of the Local Government Act (in circumstances of hardship) that Council can remit or postpone the payment of rates. Ratepayers should apply in writing to the Council stating the reason for the request. Generally remissions would only be granted under exceptional circumstances.

For the 2012/2013 period Council proposes that a remission of rates be given pursuant to Section 182(1) of the Local Government Act 1999, to any Principal Ratepayer who applies for the same to the Council on the following basis –

1. the Principal Ratepayer's assessment in respect of which the remission is to be granted is used for the purposes of primary production;
2. the assessment is also used in conjunction with other land also being used for those purposes;
3. the minimum amount payable by way of rate is payable in respect of the assessment.

The amount of the remission to be given shall be the difference between the minimum amount payable by way of rates and the amount of rates payable in respect of that assessment if the minimum amount had not been imposed, or the sum of \$160, whichever is the smaller sum.

A donation of rates paid will be made to all approved Sporting Clubs and Community Organisations who are ratepayers of the Mid Murray Council.

Council is willing to consider applications under Section 182 (1)(a) of the Local Government Act for the postponement of rates until some change in the ratepayers circumstances, or until a change of ownership of the property takes place.

RATING POLICY STATEMENT CONT'D

Any postponement granted is subject to fines being added in accordance with Section 182(2) of the Local Government Act.

Where a ratepayer is suffering hardship in paying rates he/she is invited to contact Council's Rates and Assessment Officer on 08 85690100 to discuss the matter. Such inquiries are treated confidentially by the Council.

13. REBATE OF RATES

The following rebates of Rates are available under the Local Government Act:

- Health Services (Section 160) - provides for 100% rebate for hospitals and health centres incorporated under the SA Health Care Act 2008.
- Community Services (Section 161) - provides for a rebate of 75% (or at the discretion of Council, at a higher rate). A community services organisation is a body that is incorporated on a not-for-profit basis for the benefit of the public; and provides community services without charge or for a charge that is below the cost to the body of providing the services; and does not restrict its services to persons who are members of the body.
- Religious purposes (Section 162) - provides for 100% rebate.
- Public cemeteries (Section 163) - provides for 100% rebate.
- Royal Zoological Society (Section 164) - provides for 100% rebate.
- Educational Purposes (Section 165) – provides for a rebate of 75% (or at a higher rate at the discretion of Council)
- Discretionary rebates (Section 166):
 1. For securing the proper development of the area or part of the area;
 2. For assisting or supporting a business in its area;
 3. For the preservation of buildings or places of historic significance;
 4. Where the land is being used for educational purposes;
 5. Where the land is being used for agricultural, horticultural or floricultural exhibitions;
 6. Where the land is being used for a hospital or health centre;
 7. Where the land is being used to provide facilities or services for children or young persons;
 8. Where the land is being used to provide accommodation for the aged or disabled;
 9. Where the land is being used for a residential aged care facility that is approved for Commonwealth funding under the Aged Care Act 1997 or a day therapy centre;
 10. Where the land is being used by an organisation which, in the opinion of the Council provides a benefit or service to the local community;
 11. Where the rebate relates to common property or land vested in a community corporation under the Community Titles Act 1996 over which the public has a free and unrestricted right of access and enjoyment;
 12. Where the rebate is considered by the Council to be appropriate to provide relief against what would otherwise amount to a substantial change in rates payable by a ratepayer due to a change in the basis of valuation used for the purposes of rating, rapid changes in valuations, or anomalies in valuations.

RATING POLICY STATEMENT CONT'D

14. RATE CAPPING

To provide relief against what would otherwise amount to a substantial change in general rates payable by a ratepayer due to rapid changes in valuation, a rebate of general rates for the 2012/2013 financial year will be granted to the Principal Ratepayer of an Assessment under Section 166 (1) (l) of the Act, on application to the Council.

Limit 10% increase in general rates to eligible ratepayers.

Ratepayers are eligible for the rate capping rebate where their general rates (excluding CWMS Charges, Water Supply Charges, Multi Access TV Charge, Recyclables Collection Service Charge and Natural Resource Management Levy) have increased by more than 10% on the amount they paid the previous year, and the increase is not a result of;

- Building improvements made to the land (as determined by the State Valuation Office) **or**
- Change of land use of the land, **or**
- Rezoning of the land, **or**
- Ownership of the land has changed since the 1st July 2011.

15. POSTPONEMENT OF RATES – SENIORS

Application may be made to Council for a postponement of the payment of any amount or rates in excess of \$500 for the current or a future financial years by:

- A ratepayer who holds a current State Seniors Card issued by the State Government, (prescribed ratepayer) or the spouse of a prescribed ratepayer;
- The rates are payable on the principal place of residence;
- The land is owned by the prescribed ratepayer, or the prescribed ratepayer and his or her spouse, and no other person has an interest, as owner, in the land.

As rates which are postponed will become due and payable;

- When the title to the land is transferred to another person; or
- Failure to comply with a condition of postponement.

Interest will accrue on the amount postponed at the prescribed rate per month until the amount is paid.

Postponement is available as a right and can only be refused when the applicant/s have less than 50% equity in the property.

RATING POLICY STATEMENT CONT'D

16. SALE OF LAND FOR NON-PAYMENT OF RATES

The Local Government Act provides that a Council may sell any property where the rates have been in arrears for three years or more. The Council is required to provide the principal ratepayer and the owner (if not the same person), or any party with a vested interest with details of the outstanding amounts and advise the owner of its intention to sell the land if payment of the outstanding amount is not received within one month.

The Mid Murray Council enforces the sale of land for non-payment of rates after three years.

11. FUNDING DISPARITIES BETWEEN RURAL AND METROPOLITAN COUNCILS

It is recognised that Rural Councils have a severe funding disparity with Metropolitan Councils. This is due to low population numbers in rural areas resulting in less people being available to fund a comparative level of services. As a result, rural residents have access sometimes to a lower level of services and infrastructure. There are some rural townships waiting for some services such as sewerage services, walkable footpaths, stormwater drainage, kerb and guttering and bitumen roads. Whilst communications have improved in recent years, this is still well under the services available in metropolitan areas.

The Local Government Grants Commission provides untied grants to Council to assist in reducing these disparities. Mid Murray Council receives a high level of these grants each year which are determined by a range of factors including revenue raising capacity, and expenditure functions. The grants are to assist each local government body in the State to function, by reasonable effort, at a standard not lower than the average standard of other local government bodies in the State. However, there is a need for considerably more grants to be paid to rural Councils than is currently the case.

12. COMMUNITY CONSULTATION

This Annual Business Plan was prepared in accordance with the provisions of Section 123 of the Local Government Act, 1999 but importantly to provide the community with guidance on Council's proposed activities for the 2012/2013 financial year. It was adopted for community consultation purposes at a Meeting of Council held on 12 June 2012, and adopted as Council's Annual Business Plan for 2012/13 on 9 July 2012.

The community were invited and encouraged to make either verbal or written submissions on the draft annual business plan as follows:-

1. The opportunity to ask questions or make submissions at the Council Meeting held on Monday 9 July 2012. A period of one hour was set aside at the meeting for this purpose.
2. Submissions in writing could be submitted to Council no later than 5pm on 3 July 2012.

All comments and suggestions were considered by Council in the interests of the whole community, prior to the adoption of the Annual Business Plan and Budget.

APPENDIX A

RECURRENT OPERATING EXPENDITURE:

WHERE YOUR MONEY GOES

ADMINISTRATION

Council has an extensive administration network to cater for the size of the area, number of ratepayers and residents, tourists and community support. These comprise employees working in the following fields:

Customer service,
Accounts Payable and Receivable,
Payroll,
Rates,
Support staff for Planners, Building & Health Inspectors
Senior Works Staff, Managers and Elected Members,
Accountants,
Records Management.

Information Technology

Information Technology and Telecommunications (IT&T) remain one of the key enablers supporting stakeholders in meeting Council's strategic objectives. Council supports a domain of 55 Thin Client Computers, 12 Workstations, 23 Notebook Computers, 30 Tablets with another 39 Computers supported for Elected Members, Visitor Centres, Libraries and other Community areas. In supporting a Green IT philosophy, Council's 19 servers are hosted on a virtualised core of 4 physical servers which significantly reduce power and cooling costs. Services provided to stakeholders include:

- IT Vision Synergysoft system which provides Financial Management, Records Management, Customer Relationship Management, Resource Management along with other core Council functions.
- Office Productivity Tools
- Geospatial Information System – Mapping
- IP Telephony
- High Speed Voice/Data access between all Offices and Depots using Council owned and managed microwave radio system – Delivers significant savings compared to a commercial telecommunications carrier solutions.
- Mobility tools including Remote Access to Council systems and Push Email to Smart Phones
- Cloud based access to Council information

Current focus areas are Business Continuity/Disaster Recovery planning, Digital Television upgrade for Mannum and Swan Reach and streamlining of business processes leveraging readily accessible “commodity” technologies.

PUBLIC ORDER & SAFETY

This service covers dog and cat control, fire protection, livestock and other general inspectoral duties. Many of the services in this area are undertaken to comply with legislative requirements, and therefore they will continue in 2012/2013.

Dogs

Council has 2,484 dogs registered in the area. Staff are kept busy with noise complaints, dogs wandering at large and dog attacks/harassments. Door knocks to check on unregistered dogs are undertaken when time permits.

Fire Protection

Bushfire Prevention is a major focus of fire protection and Council employs a bushfire prevention officer. Council has a legislative responsibility to control the burning of rubbish and stubble and the issuing of fire permits during the fire danger season.

Council supports CFS crews with rural fires in the provision of water tankers. The sooner a fire can be brought under control, the less damage and distress is suffered by those affected.

Livestock

Whilst not a major function Council inspectors are called to investigate stock wandering on roadsides.

HEALTH

Existing Health Services will be maintained in 2012/2013. These comprise:

Immunisations

Council carries out immunisations on a regular basis to prevent disease and protect the health of residents.

Medical Centres

Council supports medical centres in the smaller river communities at Morgan, Swan Reach and Blanchetown.

Health Inspection

Council employs qualified Environmental Health Officers who are kept busy undertaking a range of duties including:-

- immunisation
- health services and inspections
- mosquito control
- waste control system installations/approvals/inspection
- regulation and monitoring of swimming pools
- food premises inspection
- CWMS (effluent schemes) installation co-ordination
- European wasp control

Healthy Communities and OPAL

Council also assists with the Healthy Communities and OPAL (Obesity Prevention and Lifestyle) programs and activities throughout the Council area.

SOCIAL SECURITY AND WELFARE

Existing Welfare Services will be maintained in 2012/2013. These include:

Aged Care

Council supports the establishment of aged care facilities throughout the Council area. This may involve provision of land and use of Council labour and plant to assist with the construction. Administrative support is available to accept grant funds and pay accounts during the construction phase.

Once completed Council has minor ongoing costs and assists when requested.

Council's biggest cost in Aged Care is the Morgan Day Activity Centre where Council pays for the Manager of the Centre and operational costs. This valuable service was established by the former Morgan Council prior to amalgamation to ensure that their elderly residents would be catered for in the future.

Council provides and maintains the Senior Citizens' Clubrooms at Mannum. The clubroom forms part of the Mannum Leisure Centre.

Home and Community Care Services

Council administers the provision of home assistance services designed to help elderly residents stay in their own homes by providing home help such as minor building maintenance, mowing and gardening and provision of grab rails. The State Government provides grant funding for this service which is very much appreciated by those needing the service.

HOUSING & COMMUNITY SERVICES

Cemeteries

Council has thirty two cemeteries within our Council area, most of which are maintained by Council. Council appreciates the work of volunteers who help with some of the maintenance. A register of burials is maintained on Council's website, with pictures of most headstones displayed.

Effluent Drainage

Council maintains Effluent Drainage Schemes for shack areas along the River Murray, and special rates are levied to cover the costs of maintenance. Twenty eight schemes and two houseboat pump out stations are maintained by Council.

Public Conveniences

Council maintains twenty seven public conveniences throughout the Council area. These are regularly cleaned and maintained.

HOUSING & COMMUNITY SERVICES CONT'D

Street Cleaning

Streets in larger towns are regularly swept with specialised street sweeping machinery.

Sanitation & Waste Management

Council provides a weekly household waste collection to each town within the Council area, plus bin bank collection from shack areas along the River Murray. Waste Transfer Stations are located at Mannum, Morgan, Blanchetown, Bowhill, Cadell, Swan Reach, Cambrai, Truro, Tungkillo and Walker Flat. A landfill waste disposal site is located at Cambrai.

Regular street bin and reserves collection takes place.

A yearly drum-muster collection project is also carried out to remove toxic containers from the Council area. A new kerbside recycling collection service will be commenced in July 2012 to all towns that presently receive a waste collection service.

The cost of operating landfill sites has been increasing over recent years due to growing environment controls.

Planning

The planning and development section of Council has increased considerably over recent years in order to cope with the demands of growth. Three qualified Planning Officers are now employed by Council to assess development applications and assist with Development Plan Amendment reports which allow for further controlled growth throughout the Council area.

Following the recent completion of a detailed review of Council's Development Plan, Council is undertaking a number of policy amendments focussing on amongst other things, heritage, township boundaries and general policy issues. Planning staff are also kept busy in working with Council's Compliance staff in regard to illegal developments and compliance monitoring.

Disabled Access Program

Council has a program in place to improve access for disabled people to facilities. This is an ongoing project. Funds are allocated yearly to progress the plans.

Other Community Services

Council supports the community in various ways besides the traditional roads, rates and rubbish. Support and funding is provided for Rural Transaction Centres at Morgan and Blanchetown, TV Blackspots retransmission services at Mannum, Swan Reach and Truro, Keyneton Water Supply, Bowhill TV and Water Supply. TV reception in some areas has suffered due to the change to Digital technology. Council is working with private enterprise to improve reception, and an agreement has been reached to upgrade Mannum and Swan Reach services in 2012/13.

HOUSING & COMMUNITY SERVICES CONT'D

Urban Stormwater Drainage

Stormwater drainage within the townships is monitored and maintained to prevent flooding. Council has plans to improve stormwater drainage, which is carried out within available funding. Grant funding is being used to draw up plans for installation of stormwater infrastructure in some townships.

Other Protection of the Environment

Council supports Local Area Planning Groups in our Region by providing administrative support in the form of payroll services, accounts payable, office accommodation at Cambrai and lease vehicles. Administrative support is provided free of charge, and the groups reimburse Council for their staff wages, vehicle hire and operating costs.

RECREATION AND CULTURE

Halls

Council maintains fourteen halls throughout the Council area. Many of these facilities no longer enjoy the patronage that they had in past years, with these remaining in Council possession more from a cultural heritage value, than a usable asset.

Libraries

Council provides a library service at Morgan, and contributes to the joint provision of services at Blanchetown, Swan Reach, Cambrai and Mannum. Grant funding is provided by the State Government to support this valuable service.

Parks, Gardens and Reserves

All residents and tourists would be aware of Councils high quality parks, gardens and reserves. Council provides recreation facilities in all towns and river areas. These are regularly maintained in a clean and safe condition. Funding has been provided to advance Land Management Plans for these facilities.

Sport and Recreation

Ovals on land that Council is responsible for are maintained in a tidy and safe condition. Council also assists sporting bodies in the maintenance and upgrade of these facilities. A new permanent skate park has been built in the township of Mannum, and a portable skate board ramp regularly visits other townships within the Council area.

Mannum Leisure Centre

This is a purpose built facility which provides gymnasium, squash, basketball, table tennis, roller-skating, fitness classes and various other leisure activities to the community, including the clubroom for the Mannum Senior Citizens' Club.

Swimming Centres

Council owns and operates a swimming pool during summer at Cambrai. Swimming classes are held in the Christmas school holidays by Vacswim.

RECREATION AND CULTURE CONT'D

Youth Services

Council employs a Community Development Officer whose role includes youth services within the whole Council area. Youth Advisory Committees exist throughout the Council area. Funds have been allocated in the budget for youth projects. A Fun for Youth Van Bus was purchased in 2010/11 providing youth activities throughout the Council area. This new service has been well received by the community and will continue in 2012/13. The Council received a National Award for youth Engagement for this service.

Other Cultural Services

Council supports Museums in the Council area. These comprise the Morgan Museum, Mannum Dock, Cambrai and Swan Reach Museums. The Council will also support an Arts Development Officer in providing services throughout Council in 2012/13.

The Morgan/Cadell area has an old paddlesteamer (PS Canally) that is to be restored in stages to its former glory. This is providing an activity for the residents to be involved, virtually starting from scratch with complete renovation required. This is to be a long term project with Council providing significant support.

NATURAL RESOURCE MANAGEMENT

State Government legislation requires Council to collect a separate rate, which is payable to the Board to support their operations. The Natural Resource Management Board has already contributed towards environmental projects that Council is involved in designed to protect the ecology of the River Murray. Council does not have control over increases in the NRM Levy which is included on Council's rate notice.

BUILDING CONTROLS

Council employs two qualified Building Surveyors who are responsible to approve and inspect all building work. These officers are based at our Environmental Services offices situated in Cambrai, and appointments can be made for visits at the Mannum and Morgan Offices if required.

TRANSPORT

Council has the second longest length of road network to maintain in the State. This includes 306 kilometres of sealed road and 3,073 kilometres of unsealed road. Considerable resources are allocated to maintain this network, with a planned level of reseals, resheeting and maintenance carried out yearly. Grader numbers have been reduced since amalgamation. The introduction of improved work practices has resulted in newer graders working longer days and weekends.

Because of the need to maintain existing infrastructure there is not a lot of resources available for new and improved services. Bitumen roads are still required in some rural townships and major town connector roads.

TRANSPORT CONT'D

Like most other rural townships in the State, footpaths in some towns are basic with many still natural surface. Regular weed spraying takes place to control weeds, especially caltrop.

Mannum Randell Street footpath has been on the budget for many years with some paving being carried out each year in order to improve the appearance of

this commercial and tourist hub area. Truro Main Street footpath will have some work undertaken.

Upgrades and replacement of bridges generally rely on outside State or Commonwealth grant assistance. Maintenance is carried out when needed.

Roadside signage in the country faces constant vandalism. Council does its best to replace vandalised signs and improve signage within the district.

Council has a roadside tree trimming gang that patrols the Council area to prevent encroachment of vegetation onto the trafficable road surface. This is carried out for safety reasons.

Streetscape designs have been prepared for a number of towns, and these plans await funding so that the plans can be implemented.

Parking Bays are regularly maintained and street trees receive attention when required.

Road line marking is carried out each year.

On and Off Street Parking

Parking controls exist within the Council area and Council staff monitor time restrictions.

Mannum commercial main street parking is not sufficient to cater for tourist influxes during holiday periods and special events during the year and this is being reviewed. Construction has started on a new shopping complex on Adelaide Road and when completed this will assist in reducing this traffic problem.

Wharf Maintenance

Council maintains eleven wharves, one recreational jetty and a boardwalk. The most significant wharf is the Morgan structure which has historical value dating back to the early steam driven paddle boat days.

Boat Ramps

Council provides, maintains and regularly monitors boat ramps along the River Murray.

This is an essential tourist and recreation facility. Council regularly applies for boating levy funding for the upgrade of facilities detailed in Council's Boating Facility Strategy.

ECONOMIC

Caravan Parks

The Morgan Caravan Park owned by Council is leased out and Council has no operational control over this facility.

The Mannum Caravan Park is managed by a Committee of Council and is regarded as one of the best parks in the State. Profits from this park are used to upgrade the park and provide support for tourist promotional activities. Discussions are taking place to enlarge the size of the park.

Capital projects planned for the Mannum Caravan Park in 2012/2013 include:

Playground upgrade

Cabin refurbishment

Landscaping improvements

New cabin and installation

Special Events

Tourism is a major Council focus and a Tourism Action Plan is being developed to support and implement initiatives. Council is proud to support Christmas Parades and festivities and other community events.

Tourist Information Service

Council provides a tourist information service from a restored historic building adjacent Arnold Park Mannum. It is run by a paid manager, and operated by many volunteers. Tourist numbers visiting the centre grow from year to year.

Mannum Dock Museum

Council is responsible for the operations of the Mannum Dock Museum Board. This Board has under its care and control, the paddle steamer Marion, which is a State Heritage listed item. A historic paddle boat dry dock forms part of the museum display.

Other Economic Activities

Economic Development services are provided to Council by Regional Development Australia – Murraylands and Riverland Inc. which promotes industry to our Council area. A prospectus for Mid Murray, 'Ready for Business and A Place To Live' is being developed. Council also provides funding for tourism promotion projects.

OTHER PURPOSES NEC

Plant Operations

Council operates a large plant and machinery fleet.

This includes 6 Graders, 6 semi-side tipping trucks, 13 tipper and garbage trucks of various sizes, 6 heavy front end loaders and two skid steer loaders, 2 excavators, 38 passenger vehicles and utes, and various rollers, street sweeper, tractors and other minor plant.

The budget provides \$720,000 for fuel and oil, \$814,000 for repairs and maintenance and \$150,000 for registration and insurance. Plant operational costs are allocated to projects via hours of plant usage on each job.

OTHER PURPOSES NEC CONT'D

Main capital items listed in the budget for replacement are a grader, a single axle truck, a road sweeper and a front deck mower.

At this stage it is proposed to change over six passenger vehicles and four utilities.

Depots

Due to the large physical area of the Council it is necessary to maintain operational works depots at Cambrai, Morgan and Mannum. Other depots exist at Truro and Blanchetown.

APPENDIX B

KEY BUDGET FINANCIAL STATEMENTS

(as required by Regulation 7 of Local Government (Financial Management) Regulations 2011

BUDGET SUMMARY STATEMENT - OPERATING/CAPITAL SPLIT
