8.1.1 Gate Fees – 2016/2017

Report Purpose

Waste Transfer Station Facility Gate Fees – 2016/2017

Background

Every tonne of waste that goes into landfill attracts the Solid Waste Levy, set and imposed by the State Government, collected by Councils and paid directly to the Environment Protection Authority (EPA).

On July 1 2016, the Solid Waste Levy will be increased by a further $2.50 per tonne. The increase will bring the Levy to $31.00 per tonne (Regional Rate).

Due to the increase in the Solid Waste Levy, Council will need to adjust gate fees to accommodate the increase.

In order to ensure ease of transactions for both customers and operators, prices are rounded to 0 or 5.

There has been no change in Green Waste fees for the 2016/2017 period. Clean green waste material does not go to Landfill. However, due to high costs associated with processing of green waste materials, consideration should be given to increasing transfer station disposal fees in the 2017/2018 period.

- Tandem truck and semi-trailer loads of mixed waste to landfill will have the fee increased from $110 per tonne to $120 per tonne.
- Asbestos disposal will increase from $150 per tonne to $165 per tonne.
