1. **PRESENT**

Cr P J Raison, Chairperson, Cr J W Hall, Cr S P Wilkinson, Cr B J Taylor and Cr B P Schmitt.

2. **IN ATTENDANCE**

Mr N Cook, Waste Management Coordinator,
Mr R Pilbeam, Acting Director Infrastructure Services,
Mrs T Lawes, Infrastructure Services Support Officer,
Mrs C L Budarick, Minute Secretary.

3. **COMMENCEMENT AND WELCOME** 1-00 P M

4. **APOLOGIES** Were received from Mayor D J Burgess, Mr R J Peate and Mr G R Hill.

296/1 Cr Hall moved that the apologies be received.
Seconded Cr Taylor.

CARRIED.

5. **CONFIRMATION OF PREVIOUS MINUTES**

(Page 283 – 30/03/2017)

296/2 Cr Hall moved that the Minutes of the Mid Murray Council Waste Management Advisory Committee meeting held on 30 March 2017 be taken as read and confirmed.
Seconded Cr Wilkinson.

CARRIED.

6. **BUSINESS ARISING FROM MINUTES**

6.1 **Barossa Regional Procurement Group – Waste Collection Services Contract**

As directed at the Waste Management Advisory Committee meeting held on 30 March 2017, a report was submitted to the 11 April 2017 Council meeting on the Waste & Recycling Collection Contract. A copy of the report and Council resolution had been provided to all members.

Noted.
7. BUSINESS

7.1 Financial Report for Waste Management

A copy of the Waste Management Services Financial Report as at 24 May 2017, was provided to all members.

Received and noted.

8. REPORTS FROM OFFICERS

8.1 WASTE MANAGEMENT COORDINATOR’S REPORT  See Minute Book Pages 301 – 311.

297/1 Cr Wilkinson moved that the report be received.
Seconded Cr Schmitt.

CARRIED.

BUSINESS ARISING FROM REPORT

8.1.1 Waste Transfer Station Facility Gate Fees – 2017/2018

297/2 Cr Hall moved that it be recommended to Council that;

(1) The report regarding Councils waste transfer station facility gate fees for 2017/2018 be received.

(2) The following proposed increase in waste transfer station facility gate fees for 2017/2018 be adopted and that the changes be advertised through local newspapers, town magazines, signage, operating fees & times schedule, and Council’s website.

Tandem truck and semi-trailer loads of mixed waste to (Cambrai Landfill only) $130 per tonne.

Clean fill and clean unmixed construction and demolition waste (Cambrai Landfill only) $40 per tonne.

Asbestos disposal (Cambrai Landfill only) $175 per tonne.

Out of hours opening fee – $100 per visit (applicable to general public and contractors).
BUSINESS ARISING FROM REPORT CONT’D

8.1.1 Waste Transfer Station Facility Gate Fees - 2017/2018 Cont’d

(3) The Council highlights a 14.5% increase in the Solid Waste Levy payable to the Environment Protection Authority for 2017/18 and a 66% increase over 4 years from 1 July 2016 to 2019/20.

(4) A copy of the media release be sent to the Local Government Association of South Australia and the State Member for Parliament for the Mid Murray Council.

Seconded Cr Schmitt. CARRIED.

8.1.2 Extension of Existing Waste Disposal Cell at Cambrai Landfill Facility – Exemption from Mid Murray Council Procurement Policy MMC-MP6

298/1 Cr Wilkinson moved that

(2) The action taken by the Chief Executive Officer in approving the select tender process for the construction of the extension to the Cambrai Landfill Waste Disposal Cell be endorsed.

Seconded Cr Taylor. CARRIED.

The Waste Management Coordinator advised that it was intended to again engage the services of Mr Rob Coleman from the Adelaide Hills Region Waste Management Authority to assist with the planning, supervision and construction of the landfill cell extension. Costs for Mr Coleman’s services would be included in the original budget figure of $465,000.

8.1.3 Analysis of Waste Collection Contract Options for Mid Murray Council

298/2 Cr Hall moved that the report regarding the Analysis of Waste Collection Contract Options for Mid Murray Council be received.
Seconded Cr Schmitt. CARRIED.

8.1.4 Update - Barossa Regional Procurement Group (BRPG) Waste Tender Discussions

298/3 Cr Hall moved that the report regarding Update – Barossa Regional Procurement Group (BRPG) Waste Tender Discussions be received and noted.
Seconded Cr Schmitt. CARRIED.

9. CORRESPONDENCE

298/4 Resolved that the correspondence be received.
9. CORRESPONDENCE CONT’D

9.1 Mid Murray Council Media Release

Being a media release from the Mid Murray Council regarding the recent expansion of the Cambrai Landfill facility.

A copy of the media release had been provided to all members.

Received and noted.

9.2 Chairperson, Mid Murray Landcare SA

Being an email from Gavin Smith, Chairperson of Mid Murray Landcare SA, thanking Council for supplying the used bin banks for recycling and litter at Meldanda.

A copy of the email had been provided to all members.

Received and noted.

9.3 President, Scotts Creek Association

Being an email and photos from Jim Johnstone, President of the Scotts Creek Association, regarding the removal of rubbish from the Scotts Creek Shack Area.

A copy of the email and photos had been provided to all members.

299/1 Resolved that the Waste Management Coordinator advise the Scotts Creek Association of Council’s intention to erect a security camera at the bin bank facility (approx cost $300).

9.4 News Article in The Leader

Being a news article in The Leader regarding the Nuriootpa Landfill.

A copy of the article had been provided to all members.

Received and noted.

9.5 Secretary, Truro and Districts Raceway Inc

Being an email from Kym Huxtable, Secretary of the Truro and Districts Raceway seeking 12 surplus wheelie bins for use at their raceway site.

A copy of the email and the Waste Management Coordinator’s response had been provided to all members.

299/2 Cr Taylor moved that the Waste Management Coordinator be authorised to provide 12 wheelie bins, that are surplus to Council’s requirements, to the Truro and Districts Raceway Inc.
Seconded Cr Schmitt.
CARRIED.
10. **OTHER BUSINESS**

**Incinerator to Generate Fuel – Cambrai Landfill**

Cr Wilkinson queried why Council could not burn waste material using an approved incinerator method.

300/1 Resolved that the Waste Management Coordinator investigate if there is an approved method of incineration of putrescible waste materials and the cost and effectiveness of an “environmental friendly” incinerator for use at the Cambrai Landfill facility.

11. **NEXT MEETING**

To be held at Mannum at 1-00 p.m. on Tuesday 25 July 2017.

1-36 P M  The Chairperson declared the meeting closed.

8. REPORTS FROM OFFICERS

8.1 WASTE MANAGEMENT COORDINATOR’S REPORT

Cr moved that the report be received.
Seconded Cr

8.1.1 Waste Transfer Station Facility Gate Fees – 2017/2018

Report Purpose

To determine Waste Transfer Station Facility Gate Fees for 2017/18.

Background

Every tonne of waste that goes into landfill attracts the Solid Waste Levy, set and imposed by the State Government, collected by Councils and paid directly to the Environment Protection Authority (EPA).

Council adjusts waste transfer station facility gate fees and landfill waste fees accordingly.

Recent increases to the Solid Waste Levy increases in July 2016 and again in September 2016, has seen the Levy increase to $38.00 per tonne.

On 1 July 2017, the Solid Waste Levy will increase by a further $5.50 per tonne. This increase will bring the Levy for the 2017/2018 period to $43.50 per tonne (Regional Rate).

This represents an increase of 14.5% on the levy payable compared to the Consumer Price Index of around 1.5%.

Due to the Solid Waste Levy increase, Council will need to adjust gate fees to accommodate the increase.

The table below provides a schedule of Levy increases as proposed by the State Government from 1 July 2016, to the 2019/20 period:

<table>
<thead>
<tr>
<th>Financial Year</th>
<th>Solid Waste Levy Regional Rate – per tonne</th>
</tr>
</thead>
<tbody>
<tr>
<td>2016/17 from 1 July 2016</td>
<td>$31.00</td>
</tr>
<tr>
<td>2016/17 from 1 September 2016</td>
<td>$38.00</td>
</tr>
<tr>
<td>2017/18</td>
<td>$43.50</td>
</tr>
<tr>
<td>2018/19</td>
<td>$50.00</td>
</tr>
<tr>
<td>2019/20</td>
<td>$51.50</td>
</tr>
</tbody>
</table>

This means that the levy from 1 July 2016 to 2019/20 will increase by 66%, over a 4 year period.

Below are tables showing the current 2016/2017 fee structure (table 1), along with proposed fee structure for the 2017/2018 period (table 2).

Green Waste disposal fees have not increased (the material does not attract the Solid Waste Levy) for this period. Council will continue to provide 4 free green waste disposal days to ratepayers/residents.

For the information of members and to provide a fee schedule comparison, attached with this report are current (2016/2017) gate fee schedules from other Council’s located adjacent to the Mid Murray Council.

Refer Appendix 8.1.1
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.1 Waste Transfer Station Facility Gate Fees - 2017/2018 Cont’d

Other fees to be adjusted on the Waste Fees schedule are:

- Tandem truck and semi-trailer loads of mixed waste to landfill will have the fee increased from $120 per tonne to $130 per tonne.
- Clean fill and clean unmixed construction and demolition waste (i.e. all concrete or all timber) to Cambrai Landfill will have the fee increase from $37 per tonne to $40 per tonne.
- Asbestos disposal will increase from $165 per tonne to $175 per tonne.

The out of hours opening fee remains the same – $100 per visit (applicable to general public and contractors).

Recommendation
Moved __________________ Seconded __________________
that it be recommended to Council that;

(1) The report regarding Council’s waste transfer station facility gate fees for 2017/2018 be received.

(2) The following proposed increase in waste transfer station facility gate fees for 2017/2018 be adopted and that the changes be advertised through local newspapers, town magazines, signage, operating fees & times schedule, and Council’s website.

Tandem truck and semi-trailer loads of mixed waste to (Cambrai Landfill only) $130 per tonne.

Clean fill and clean unmixed construction and demolition waste (Cambrai Landfill only) $40 per tonne.

Asbestos disposal (Cambrai Landfill only) $175 per tonne.

Out of hours opening fee – $100 per visit (applicable to general public and contractors).
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.1 Waste Transfer Station Facility Gate Fees - 2017/2018 Cont’d

Recommendation Cont’d

(3) The Council highlights a 14.5% increase in the Solid Waste Levy payable to the Environment Protection Authority for 2017/18 and a 66% increase over 4 years from 1 July 2016 to 2019/20.

(4) A copy of the media release be sent to the Local Government Association of South Australia and the State Member for Parliament for the Mid Murray Council.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT'D

8.1.2 Extension of Existing Waste Disposal Cell at Cambrai Landfill Facility – Exemption from Mid Murray Council Procurement Policy MMC-MP6

Report Purpose

Exemption from Mid Murray Council Procurement Policy Requirement – MMC-MP6 for the extension of existing waste disposal cell at the Cambrai Landfill Facility.

Background

Construction of the Cambrai landfill facility began in late 2012 and was completed in early 2013. Council began receiving waste into the existing cell in March 2013, after approval was received from the Environment Protection Authority (EPA).

The current cell is designed to be ‘built onto’ in two directions as it is the first of four cells. As such, the cell has two permanent sides and two which will be removed when construction of further cells are undertaken.

With the available space in the current cell for waste disposal expected to expire around December 2017, Council has recently investigated options regarding the Cambrai landfill facility, with Council electing to undertake the option of extending the waste disposal cell currently in use, so that the entire cell is compliant and capable of storing putrescible waste material.

Motion from 14 March 2017 Council Meeting:-

9.1.6 Cambrai Landfill - Review of Landfill Operations

19185/1 Cr Raison moved that

(1) Trevor Hockley be thanked for attending the Council meeting and presenting his report on the Review of the Cambrai Landfill operations.
(2) the Cambrai Landfill Operations Audit Review be received.
(3) Council adopt option 2 in the report involving the clay lining of the remainder of cell 1 thereby creating seven more years of operation.
(4) Council consider an allocation $465,000 in the 2017/2018 budget to implement this option.

Seconded Cr Hall.

CARRIED.

It is expected this action will extend the life and capacity of the disposal cell for up to 7 years.

Council previously enlisted the services of Mr Rob Coleman (Adelaide Hills Region Waste Management Authority) as consultant to facilitate and supervise the construction of the Cambrai landfill facility and all associated works in 2012/13. Given the expertise and knowledge required to undertake the necessary works to extend the existing Cambrai landfill cell, it would be beneficial for Council to again engage the services of Mr Coleman to plan and supervise the construction of the landfill cell extension and any associated works.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.2 Extension of Existing Waste Disposal Cell at Cambrai Landfill Facility – Exemption from Mid Murray Council Procurement Policy MMC-MP6 Cont’d

Summary

Mid Murray Council Procurement Policy – MMC-MP6

Because the cost of the proposed work to extend the existing waste disposal cell at the Cambrai landfill is in excess of $100,001, Council’s Procurement Policy requires that the work be advertised through an Open Tender process. However, there can be exemptions to this requirement under the Council Procurement Policy.

Due to the urgency of the required work (to enable waste disposal to continue) an open public tender would not be a practical process in this instance. An Open Tender process and the subsequent construction work required is unlikely to be completed within sufficient time to allow Council to continue to dispose of waste in the existing cell. Further, an open public tender would also likely result in Council receiving tenders for the work from organisations without the requisite experience or ability and who may not be able to undertake the required work to a satisfactory standard and within the required time frame.

When construction of the Cambrai landfill and associated works were originally undertaken, Council undertook a Select Tender process with three local companies experienced in civil works and specifically in landfill facility construction. At the time, Council recognised that the work to be performed requires certain skills and knowledge by experienced civil construction companies. It was also recognised that all Selected Tenderers were experienced with such work and more than capable of undertaking the required work.

Because the current cell, in its present form, is likely to reach capacity by December 2017, it is imperative that work to extend the life and capacity of the cell be completed as a matter of urgency. It is anticipated work would begin in August 2017 and be completed in November 2017. With this in mind, a Select Tender would be the most practical process in this instance.

Council’s Procurement Policy does allow for exemptions from the Policy under certain circumstances, as the below extract from the Policy identifies:

**Exemptions from this Policy**

This Policy contains processes to be followed by the Council in its procurement activities. There may be emergencies, or procurements in which the methods included in this Policy will not necessarily deliver best outcome for the Council, and other market approaches may be more appropriate.

Where there is a significant public risk if the procurement is delayed by process requirements, such as emergency situations threatening life and property or to enable the prompt return to business under Council’s Business Continuity Plan, the Chief Executive Officer is delegated by Council to expend funds as required. The Chief Executive Officer will provide Council with a report as soon as practical regarding the emergency situation and actions taken.

In certain other circumstances, the Council may, after approval from its Chief Executive Officer, waive application of this Policy and pursue a method which will bring the best outcome for the Council.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.2 Extension of Existing Waste Disposal Cell at Cambrai Landfill Facility – Exemption from Mid Murray Council Procurement Policy MMC-MP6 Cont’d

Exemptions from this Policy Cont’d

Council may choose exemption from the requirement to seek tenders or quotations, if:-

(i) The pressures of time are such that an open call is not feasible, such as where there has been an unanticipated Council or Government policy decision; or

(ii) Council purchases assets or goods at an auction up to $100,000; or

(iii) Council purchases second-hand assets or goods up to $100,000; or

(iv) A situation presents itself wherein a contractor or consultant has considerable background knowledge and experience or specialist expertise on that particular Council project or asset e.g. an extension of a previous project. In such situations the procurement of assets, goods, works or services on negotiated fees and terms through that consultant or contractor alone may be deemed sound and advantageous to the project. This could include engaging the contractor or consultant on a retainer basis or a specified period of time.

Council must record its reasons in writing for any exemptions to this Policy.

For the reasons outlined above and in accordance with the requirements of Council’s Procurement Policy, an exemption was sought from the Chief Executive Officer to use a Select Tender process in this instance. Council’s Chief Executive Officer granted approval to use a Select Tender process on 5 May 2017 as follows.

“Your request for select tender for the extension of the existing cell for the Cambrai Landfill facility is noted. It is acknowledged that the works require specialist expertise and experience. Approval is given for select tender/panel contract in accordance with Council’s Procurement Policy as it is considered that the 3 contractors nominated have the requisite skills and experience, the process will ensure sufficient competiveness and efficiency of the procurement process”.

Recommendation

Moved __________________ Seconded __________________

that

(2) The action taken by the Chief Executive Officer in approving the select tender process for the construction of the extension to the Cambrai Landfill Waste Disposal Cell be endorsed.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.3 Analysis of Waste Collection Contract Options for Mid Murray Council

Background

The Mid Murray Council presently has a contract for the collection of putrescible material and recycling with Solo Resource Recovery. This contract expires on the 31 December 2017.

The Mid Murray Council wishes to undertake an analysis of waste collection contract options for the next contract for the collection of putrescible waste and recycling.

Summary

The Mid Murray Council is currently investigating options for future waste collection contracts and, through a Request For Quote (RFQ) process, has engaged the services of Mr Trevor Hockley (TJH Management Services Pty Ltd) to analyse, assist and provide advice to Council regarding the various options for future waste collection contracts (putrescible waste & recyclable materials). Total Cost: $15,840 (plus GST)

The RFQ requires that the following scope of work and analysis be undertaken.

- An analysis of the existing waste management contract between the Mid Murray Council and Solo Resource Recovery. The existing unit rates for such collection in comparison with other Murraylands and Riverland Council rates is required to be documented for comparative purposes.

- An analysis of the existing Adelaide Hills Regional Waste Management Authority contract with member Councils is required to be undertaken. Such analysis is to include the cost involved, the unit rate and annual cost for the Mid Murray Council to be part of this contract. Further, the analysis is to include the option that the southern section of the Mid Murray Council enters into this contract with the Adelaide Hills Regional Waste Management Authority.

- The Barossa Regional Procurement Group involving The Barossa Council, Adelaide Plains Council, Light Regional Council and Mid Murray Council will be calling tenders for waste management contracts in July 2017. An analysis of the unit rate and cost for the Mid Murray Council to be part of this contract is required to be undertaken when evaluation is done in August/September 2017.

- The Riverland Councils, including Renmark Paringa Council, Berri Barmera Council and District Council of Loxton Waikerie, presently have a contract with Trans Pacific for the collection of their putrescible waste and recycling. An analysis is required to be undertaken of this existing contract for the Mid Murray Council to participate on a unit rate and annual cost basis for comparative purposes. In addition, an option needs to be assessed involving the northern section of the Mid Murray Council so that this can also be compared in terms of unit rate and annual cost.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.3 Analysis of Waste Collection Contract Options for Mid Murray Council Cont’d

- In House Collection Service:
  - An analysis of the unit rate and total cost (including purchase of necessary plant), depreciation and all other costs (including use of the Cambrai Regional Landfill Facility) for the Mid Murray Council to undertake the putrescible waste and recycling collection itself.

- If the consultant undertaking the analysis of abovementioned options believes there are further alternatives, these can be considered in the evaluation, on prior discussion with Council, before writing and submitting the final report.

- A summary analysis of all the options requested and recommendation/s is required.

- A presentation of the draft report of the analysis of waste management contract options for Mid Murray Council is required for the Waste Management Committee of Council. Further, discussions should be held with the relevant persons of the abovementioned Councils, Regional Waste Authorities and contractors to obtain the necessary information to enable the analysis of waste management contract options.

- The analysis is required to be completed by the 31 August 2017. The quotation should include a detailed cost of number of hours to undertake the analysis, travel costs, any accommodation and any other costs incurred.

As identified in the above scope of work, a draft report will be presented to the Waste Management Advisory Committee once investigation of options has been completed.

For members’ information.

**Recommendation**

Moved __________________ Seconded __________________

that the report regarding the Analysis of Waste Collection Contract Options for Mid Murray Council be received.
8.1 WASTE MANAGEMENT COORDINATOR’S REPORT CONT’D

8.1.4 Update - Barossa Regional Procurement Group (BRPG) Waste Tender Discussions

Report Purpose

This report is to update and keep members informed of ongoing discussions and negotiations for Council waste collections and contracts through the Barossa Regional Procurement Group (BRPG). This follows the previous report to the Waste Management Advisory Committee Meeting on 25 March 2017, advising that Mid Murray Council is currently working with the BRPG as one of the options to tender and contract future waste collection services. It was resolved at that meeting to continue the tender process with the BRPG.
